PROFESSIONAL SUMMARY

Motivated Final year B.E Computer Engineering student at Datta Meghe College of Engineering, Navi Mumbai, with internship experience in web development (PHP, CMS development), Java application development, and SQL-driven data analysis. Skilled in developing dynamic web applications, database integration, and building scalable software solutions. Passionate about software development and creating user-centric applications.

EDUCATION

Bachelor of Engineering – Computer Engineering (B.E CE) 2023 – 2027

Datta Meghe College of Engineering Airoli, University of Mumbai

Class XII – Maharashtra State Board 2023

Aggregate: 65%

Class X – ICSE 2021

Aggregate: 88.5%

INTERNSHIP EXPERIENCE

Project Intern — Tata Institute of Fundamental Research (TIFR), Mumbai June 2026 – August 2026

- Developed and maintained the TIFR Guesthouse Management Website using PHP, HTML, CSS, JavaScript, and MySQL.
- Designed and implemented a Content Management System (CMS) that enabled administrators to create, edit, and delete website pages dynamically without modifying the source code.
- Built dynamic modules for managing guesthouse content, including pages, galleries, and announcements.
- Improved website maintainability by integrating an easy-to-use admin panel with a rich text editor for content updates.
- Collaborated with the TIFR team to deliver a responsive, user-friendly, and scalable web application.

Java Developer Intern — JavaSpark Solutions Jan 2026 – Feb 2026

- Designed and developed full-stack Java applications encompassing web and application development modules.
- Integrated SQL and Firebase databases to enable real-time data synchronisation and persistent storage.
- Collaborated in an agile team environment, delivering functional modules within sprint timelines.

Data Analysis Intern — Main Flow Services & Technologies Pvt. Ltd. Jan 2025 – Mar 2025

- Executed end-to-end SQL workflows including data extraction, cleansing, transformation, and reporting for business datasets.
- Optimised complex SQL queries, reducing report generation time and improving analytical efficiency.
- Produced structured analytical reports presented to mentors, demonstrating clear communication of data insights.

CERTIFICATIONS & TRAINING

- Java & Android Developer with DSA | Issued: Oct 2025
- MySQL: SQL, PL/SQL & DBA Programming | Issued: Oct 2025
- Introduction to Data Science | Issued: Jan 2025
- Data Analysis Using Python | Issued: Dec 2024
- TCS iON Career Edge – Young Professional | Issued: Dec 2024

TECHNICAL SKILLS

Programming Languages: Java, SQL, Python

Databases & Tools: MySQL, Firebase, Power BI, Microsoft Excel, PowerPoint

Core Competencies: Data Extraction & Cleaning, Query Optimisation, Application Development, Data Visualisation, Business Reporting

Languages Known: English (Proficient), Hindi (Proficient), Marathi (Native)
